Forecast for Friday 05 Feb 2021

Weather: Cloudy with further outbreaks of snow, heavy during the morning especially over the Trossachs. The snow then becoming lighter during the afternoon with drier weather developing towards Lochaber, Mull and Glencoe. Blowing of existing snow will continue to hazard in all areas.

Chance of cloud free mountain/hill tops above 800m: 30% towards west coast. Little chance elsewhere.

Visibility: Extensive cloud cover, well down the hills in many areas with blowing snow resulting in whiteout conditions. Pockets of good visibility developing over hills towards West Coast with clouds lifting above some of the tops.

Met Office Aberdeen Meteorologist's View
A hazardous day in the hills due to combination of gale force winds, sub-zero temperatures drifting and blowing snow.

Forecast for Saturday 06 Feb 2021
Weather: Rather cloudy over the Arrochar Alps and the Trossachs with further snow showers. Drier and brighter further west and also up towards Glencoe and Lochaber with some sunshine and just a few light snow flurries. Another bitterly cold day everywhere.

Maximum wind: Easterly winds with average speeds of 30mph and gusts 45mph.

Chance of cloud free mountain/hill tops above 800m: 60% in west of area but little chance in east.

Visibility: Generally good in west of area with clouds lifting above the tops at times. Often poor in east with extensive cloud cover about 600m. Also blowing snow leading to whiteout conditions.

Temperature: **Glens:** Minus 2 Celsius rising briefly to plus 2 Celsius.
At 800m: Minus 5 Celsius.
Freezing level: Temperatures below freezing at all levels.
